Q1. c)

→

A Warning explains dangers that might result in personal injury or death.

A Caution explains hazards that could damage a product, including data loss.

If both results are possible, a warning takes precedence.

~~Ex~~
Example for a Warning could be a Warning sign stating "Warning!!! Unauthorized entry is prohibited." outside a private area.

Example for Caution ~~could~~ could be a Caution sign stating "Caution! Wet Floor" in malls while the staff cleans the floor.

Disadvantages of Grapevine Communication are - (Drawbacks)

1) Distortion - ~~A~~

Grapevine generally develops due to various reasons. One of them is that when an organization is facing recession, the employees sense uncertainty.

Also, at times employees do not have self-confidence due to which they form unions.

Sometimes the managers show preferential treatment and favour some employees giving a segregated feeling to other employees. Thus, when employees sense a need to

19

exchange their views, they go for grapevine network as they cannot use the formal channel of communication in that case.

Generally during breaks in cafeteria, the subordinates talk about their superior's attitude and behaviour and exchange views with their peers.

They discuss rumors about promotions and transfer of other employees. Thus, grapevine spreads like fire and it is not easy to trace the cause of such communication at times.
